## POST APPLIED: CIVIL ENGINEER

### CAREER OBJECTIVES

Willing to work in an organization which would provide as a platform where my capabilities and skills can be utilized to the best extent and there is ample scope for learning as well as delivering the tasks confidently in a challenging and creative work environment.

### EDUCATIONAL DETAILS

- Acquired Bachelor of Engineering degree in Civil Engineering From VTU Belgaum with First class (61% Aggregate) in 2016.
- Completed Pre-University from REVA University, Bangalore with Second class (59%) in 2012.
- Passed high school from N.S.E.S with First class (61%) in 2010.

### WORK EXPERIENCE

Total 2 **years** of Experience. Worked as a junior engineer in City Constructions & Contractors for First 12 Months then Promoted as Project Engineer till date.

### JOB RESPONSIBILITIES

- As a junior engineer I was asked to attend and indulge in design, quantity estimation as well as site supervision duties.
- Visiting different sites, assisting and guiding the foreman and laborers with the work and co-coordinating everything.
- Checking company mails for any enquiry and prepare a tender by estimating the quantity for the project if so.
- Keeping an update of the sites and submitting it to the senior officials in the company regularly.
- Co-coordinating our work with the clients and other department works ongoing simultaneously in the same site without any mutual complaints and defects.
- As Project Engineer assisted junior Engineers regarding their duties

## FINAL YEAR PROJECT

### CEMENT, FLY ASH AND NCS AS A SUSTAINABLE GEOTECHNICAL MATERIAL

- The main objective of using the above mentioned amended material is:
- To lower the impact caused on environment due to geotechnical materials. And to improve workability of concrete.
- To improve the compressive strength and ductility of concrete (use of Nano -material).
- To reduce requirement of cement for same strength thus reducing cost of cement.

## TECHNICAL SEMINAR

### Participated in one day work shop on “Use of Robotics in Construction Technology”

Real time Experience in Traffic Audit with help of Traffic Police officer.

## TECHNICAL SKILLS

- MS Office & AutoCAD
- Ability to do estimations (Quantity surveys)
- An ability to identify, formulate and solve engineering problems.
