and
benefits

IBRC Methodology

Technical

TENDER PROCESS

The process of issuing a Request for Information and starting proposal, prequalification and qualification for the intended project, fulfill clients requirements and identifying the right Supplier and subcontractor preferred to the project, such a process is considered as a vital role in securing the quality of projects and clients' trust.

Technical support & Capabilities

Responsible for the entire process of tendering and execution;

- Tendering- Pre contract estimation
- Preparation of Pre-Qualification documents
- Post contract quantity surveying works
- Procurement of materials
- Material submittal
- Sub contract administration
- Dealing with variation
- Interim payments/ monthly valuations
- Post contract correspondence
- Finance management of contracts
- Management reporting

ESTIMATE

Using techniques of the modern estimate best practice and it solution to identify the most practical and accurate estimate that will bring about clients satisfaction.

Project Award

set by the clients or his representative, for project consideration award, then called for approval and kickoff meeting.

Supplier Relation

Selecting the right supplier and subcontractors for the awarded project is an essential to ensure complete compliance and conformance with the project contracts.

Procurement

Reviews the procurement documents prepared with quality requirements that are applicable to the procedures of the Project Quality Plan and adhered to scheduled, in meeting targets and objectives. Identifies challenging issues within the scheduled plan and discuss them with the Project Manager. Coordinates procurement activities performed by subcontractors with respect to the requirements of the Procurement Plan.

BRC Capabilities

PROJECT EXECUTION

The execution of the project will be in the hand of the selected project manager that will work in an strategic way, through setting up proper project objectives that is in line with the project milestone, following up with proper sequences:

- 1- Project structure and responsibility distribution**
 - Site office team (Planning, cost Control, Quantity surveying engineers)

Subject: Approval of Sub-Contractor for Road Works

Dear Sir,

With reference to the above mentioned subject and further to your letter ref: (DM575/L-15/2016) dated 23/01/2016 and DM letter ref: (812/02/02/1/1601848) dated 08/02/2016, please be informed that M/s Al Bawadi Road Contracting LLC had been approved as subcontractor in order to carry out road works (except asphalt works) for the above mentioned project subject to the following conditions:

1. Asphalt works to be done by approved asphalt contractor.
2. Asphalt mix design to be approved by DM/ DCL.
3. All asphalt test to be carried out at DM/ DCL.

Furthermore, the above approval shall in no-way invalidate any obligation of the contractor under the contract.

This is for your information and necessary action.

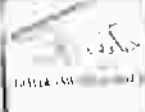

Thanking you and regards,
