- Construction of Road & Utilities
- Landscaping Construction

EXPERIENCE SUMMARY

I am a Project Management expert with more than 14 years of multinational experience which includes 13 years of Gulf Experience. I am currently working with **Hills & fort Construction, Dubai (UAE) as Projects Manager**. As the head and leader of the project, I have a long track record of ensuring projects are delivered to the highest quality, within budget by effectively organizing, managing and utilizing all resources, adhering all the safety requirements and to utmost satisfaction of the Stakeholders. I used to be actively involved in all aspects of the project life-cycle such that I can deliver high-value projects in matrix organizations and across different geographies.

My experience covers wide range of projects including Roads/ highways, bridges, Underpass, Culverts, Services/Pipelines (Water, Sewerage, TSE, irrigation, telecommunication lines etc.), parks, small buildings and landscaping etc. I have been deeply involved in handling project of different intensities where I am responsible for overall project management of the project which includes but not limited to management of Scope, Cost, Time, Stakeholder, Change, Procurement, Quality, Risk and Human Resource etc. for the project. In most of my projects, I had carried out detailed Risk Management along with my team to mitigate, avoid, accept and exploit the risk as it arises due to change in scope, time, cost, procurement, quality, compliance, Safety etc.

In Qatar my CV is already been approved with major clients like Ashghal, Hammad Medical Cooperation, Private Engineering Office (PEO), Qatar Petroleum (QP), Aspire Logistic, Qatar foundation, Kahramaa, Qatar Olympic committee etc. as "Project Manager".

My experience in Dubai includes multi-million dollar projects like R777/4A Dubai Creek Crossing Seventh Crossing Corridor (Bur Dubai Side), R882/1 Improvement of Al Safouh Area Roads Networks (Roads R1 and R2) & Dubai Municipality R757/2 Palm Island (Jumeirah) Road Corridor and Access where I used to lead the Structural team for the Construction of Bridges, Underpass, Roads and Sign mounted Gantries etc. As Engineer of the project I was responsible for preparation of Method Statement, Material Submittals, Procurement of material, Shop /As built drawing preparation, Site management, Raising invoices (interim/final), making sure that we raise inspection request as per BOQ, Safety and quality management for the project etc.

WORK EXPERIENCE

Hills & Fort Construction LLC, Dubai UAE as Project Manager,

(May'2017 – till Date)

Client	Project
The Royal Atlantis	The Royal Atlantis Resort & Residence, The Palm Dubai
Al Barari	Al Barari Phase II - Asjar & Seventh Heaven

The Royal Atlantis resort & Residence, The Palm Dubai is one of the landmark projects in Dubai. As many contractors and subcontractors are involved, Stakeholder management & communication management was handled very carefully. We apply change management to a change in order to drive individual transitions and ensure the project meets its intended outcomes. We are providing best feasible solutions to execute the works such that project can be completed within its project duration to the utmost satisfaction of the client.

Bin Omran Trading and Contracting (BOTC), Doha Qatar as **Project Manager**, (April'2010 – April' 2017)

Clients	Projects
Public Works Authority (Ashghal)	1) Access road to Solid waste management plant, Messaid 2) Public Realm and Landscape Design, Mock up 1 & 2 (IA 12/13 C 072 G) 3) Doha Expressway Package 2 4) Construction of Graveyard At Mesaimeer (C2009/25) 5) 10109- PSS- Construction of Palestinian and Sudanese schools in Doha
Kahramaa , Qatar	1) Head works construction for Barwa RPS & Associate pipelines (GTC 232) 2) Head works construction for Muaither RPS & Associate pipelines (GTC 233/2008) 3) Qatar Power Transmission System Expansion Phase-10 EHV Power Cable Package C-2 (Road Works)
Qatar Foundation(QF) & ASTAAD	Cycling Project at Education City
Aspire Logistic, Qatar	1) Delivery, Development and Construction of standard Asphalt road along the new throwing Field facility in Aspire Zone (AF/C/AL5266/13) 2) Aspire Restaurant and Coffee Shop (AF/C/ALAP5124/12) 3) Landscaping at Aspire tower hotel (AF/C/ALAT1319/10)
Private Engineering Office(PEO) and Qatar Petroleum(QP)	RLIC Workers Hospital- External Services & Infrastructure Package
Hammad Medical Cooperation (HMC), Qatar	1) Hammad Hospital Internal roads 2) Road works near Emergency Entrance
Qatar Olympic Committee (QOC), Qatar	1) Renovation of 6 sports Club 2) Internal roads Barzan and Simaisima sports clubs

Most of the projects were of fast track nature, especially PEO project RLIC Workers Hospital- External Services & Infrastructure Package which needs to be completed in 3 month time. It's completed as per schedule time and with a very good profit for the company. The stakeholders like QP and others contractors are managed very well and change management are done in a very controlled manner such that it benefits the client, company and society at large. In this project procurement of the materials were the key success elements which was managed properly, and we used some of our available existing stock materials by changing the material type by change management process with consultant and client approval.

Public Works Authority (Ashghal) project Public Realm and Landscape Design, Mock up 1 & 2 (IA 12/13 C 072 G) is a State of Art project where many special materials are used including street furniture(QR 7 million cost) of different types from Spain. The project was completed to the utmost satisfaction of the stakeholders and we were praised for the planned works and timely procurement of the material as the material types were changed many times.

COMPUTER LITERACY

- AutoCAD
- STAAD
- Microsoft Office
- Primavera

Wade Adams Contracting LLC Dubai UAE Project Engineer/ Senior Site Engineer (Sept'2005 – Mar'2010)

Road and Transport Authority (RTA), Dubai, UAE (formally Dubai Municipality)	1) R777/4A Dubai Creek Crossing Seventh Crossing Corridor (Bur Dubai Side) 2) R882/1 Improvement of Al Safooh Area Roads Networks, Roads R1 and R2 3) Dubai Municipality R757/2 Palm Island (Jumeirah) Road Corridor and Access
TECOM, Dubai, UAE	P-122 TECOM Roads Improvements

All the projects are of Multimillion dollar cost, Prime responsibilities included the structural works (Bridge, Underpass or tunnel, Pedestrian underpass, Roads and Ground mounted Signboard installation).

Project (R882/1 Improvement of Al Safooh Area Roads Networks

- Roads R1 and R2) completed casting of 5 bases out of total 21 bases of an underpass in the first month of the project (which was highly appreciated by client and consultant). The underpass and bridge over Sheikh Zayed Road was completed and handed over before the completion time.
- Use of fixed temporary gantries for the construction of the bridge over Sheikh Zayed road in live traffic which was executed to perfection adhering all the safety requirements.

“R777/4A Dubai Creek Crossing Seventh Crossing Corridor (Bur Dubai Side)” project

- Managed the work under live traffic; we put the load of the bridge span on Scaffoldings and made three pier, and opened the road without hampering the traffic of Al Maktoum Bridge.

K.Ramakrishnan Engineering contractor, India, Senior Site Engineer, (June'2004 – Aug'2005)

Different projects for road works, including National Highway Authority of India projects where I was responsible for site management, Surveying, Shop drawing preparation, Material testing's, Method Statement preparation etc.

AWARDS
