By Hand Made

I have a strong 3d visualization background, and have international experience as well, where I functioned as an independent 3d visualizer for a variety of projects. Among other tasks, I fabricated scaled 3d Models with paper and cardboard. I earned a reputation among my employers and colleagues for my dedication and responsible attitude, and I would be happy to furnish the contacts if asked.

I would very much enjoy discussing the possibility of our working together. I look forward to hearing from you.

I'll call your office early next week to see if we could meet soon and discuss this job opening.

Sincerely
Aamer Waheed
